

## **AGENDA**

### **COMMITTEE ON ACCOUNTS, ENROLLMENT AND REVENUE ADMINISTRATION**

**December 17, 2007**

**Aldermen Pinard, Thibault,  
Smith, DeVries, Long**

**4:00 PM**

**Aldermanic Chambers  
City Hall (3<sup>rd</sup> Floor)**

1. Chairman Pinard calls the meeting to order.
2. The Clerk calls the roll.
3. Department travel/conference summary reports submitted as follows:
  - a) Stephen Adams, Jr., National Airports Conference (Sept. 9-12, 2007)
  - b) Paul Mueller, Airport Certified Employee-Security Program (Sept 30 thru October 4, 2007)
  - c) William Biser (Airport), GCR Users Conference (Nov. 5-8, 2007)
  - d) Patricia Turcotte (Airport), GCR Users Conference (Nov. 5-8, 2007)
  - e) Joan Pitman (Airport), GCR Users Conference (Nov. 5-8, 2007)
  - f) Glen Ohlund (MEDO), 2007 NEDA Conference (Sept. 30 thru Oct. 2, 2007)
  - g) Fred McNeill (EPD), WEFTEC 2007 (Oct. 13-17, 2007)
  - h) June George (EPD), Northeast HTE Users' Group Conference (Oct. 9-11, 2007)
  - i) Denise Vigneault (EPD), Northeast HTE Users' Group Conference (Oct. 9-11, 2007)
  - j) Kim LeBlanc, Michele Bogardus and Lisa Sorenson (Finance), Northeast HTE Users' Group Conference (Oct. 9-12, 2007)
  - j) Frank Thomas (Highway, APWA Congress & Exposition (Sept. 2007)
  - k) Dawna Rooks (Human Resources), Northeast Users' Group Conference (Oct. 9-12, 2007)
  - l) Martin Boldin and Judy Cooper (OYS), NE School of Best Practices in Addiction Treatment Advanced Clinical Coursework/Opioid Treatment Coursework (Aug. 24-27, 2007)

**Ladies and Gentlemen, what is your pleasure?**

4. Abatement and Overlay Account Update submitted by the Board of Assessors.  
**Ladies and Gentlemen, what is your pleasure?**
5. City's Monthly Financial Statements (unaudited) for the five-months ended November 30, 2007, if available.  
*(Note: report to be submitted prior to or at meeting.)*  
**Ladies and Gentlemen, what is your pleasure?**
6. Finance Department reports submitted by Sharon Wickens, if available.  
*(Note: reports to be submitted prior to or at meeting.)*  
**Ladies and Gentlemen, what is your pleasure?**
7. Finance Officer and City Solicitor to provide information regarding biennial budgeting.
8. If there is no further business, a motion is in order to adjourn.

### **Travel/Conference Summary Form**

Name: Stephen J. Adams, Jr. Department: Aviation  
Purpose of Travel: F. Russell Hoyt National Airports Conference  
Date(s) of Travel: September 7, 2007 – September 12, 2007  
Location: Tucson, Arizona

#### **Summary of meeting or conference agenda**

The National Airports Conference is focused on addressing issues of current and future concern to the management of an airport facility. Representatives from the Transportation Security Administration and Federal Aviation Administration give updates on security and pertinent issues from the Washington perspective. The AAAE Board of Directors meetings address the response of airports to new and proposed regulatory mandates.

#### **Information learned**

Information was learned regarding auditing and control of airport finances; current status of the FAA Airport Improvement Program reauthorization; challenges the aviation industry faces in an uncertain economy; the latest issues facing airports in an ever changing security environment. Discussion touched on the role of the Transportation Security Administration in the future regarding employee screening, security threat assessments, perimeter security and passenger and baggage screening issues. Means and methods of attracting new or additional air service were discussed at length, with many interesting ideas on the best way to grow your airport's traffic. Many other issues of mutual interest to medium and large hub facilities were discussed.

Purpose of Travel: Security Training  
Date(s) of Travel: 9/30/07 thru 10/4/07  
Location: Phoenix, Arizona

### **Summary of meeting or conference agenda**

The Airport Certified Employee – Security program, a three and a half day curriculum administered by American Association of Airport Executives is based on 49 Code of Federal Regulations, Transportation Security Administration Security Directives, International Civil Aviation Organization guidance and other aviation security guidance. The first day involved review of the history of security incidents involved in aviation and focusing on lessons learned and the development of security policies. The second day focused on commercial aviation/airport regulations and security directives. The third day was an overview of security policies relating to the Airlines, General Aviation, Cargo, Foreign Flights, and Incident Management. The fourth day was a final review and a written examination to certify the students in the subject matter covered.

### **Information learned**

As the Security Manager for our airport, for the past two years, most of my learning has occurred as I reacted to an issue or addressed a subject through research and guidance from others. This program was found to be highly beneficial, as it provided me a broad background and history to the regulations and guidance that are commonly used in my role. It further focused on areas of concern such as the Inside Employee Threat, Infrastructure Security Review, General Aviation and Cargo Flights, all of which have been a recent focus of security at airports around the country. The course itself was well taught and developed. It was fairly intense, with long days and culminating with a thorough certification examination.

**A COPY OF THIS COMPLETED FORM WILL BE SUBMITTED TO THE CITY CLERK'S OFFICE FOR DISTRIBUTION TO BOARD OF MAYOR AND ALDERMEN**

## AAAE ACE Security Review Course

The Airport Certified Employee (ACE)-Security Program is an extensive curriculum based on 49 Code of Federal Regulations (CFR)-1500 Series: Transportation Security Administration (TSA) Regulations, International Civil Aviation Organization (ICAO) Annex 17, TSA's Sanction Guidance and other current aviation security documents. This discipline-specific certification program is designed to establish a general knowledge base for airport professionals working in the fluid security environment.

Carefully designed for aviation personnel tasked with security responsibilities from the airport, air carrier, indirect air carrier, and general aviation sectors, this unique blend of U.S. and international regulatory advisory information will create a baseline of knowledge for operating in the dynamic airport security environment. Distinguish yourself within the aviation community by earning this uniquely comprehensive security certification today.

Active airport security personnel from around the country at FAA class size airports (Classes I-IV) and at various airport security categories (Category X, 1-4) reviewed the course materials. This course not only addresses but expands upon the minimum requirements of Transportation Security Administration Regulation 49 CFR 1542.3. Eligible course participants may elect to take the ACE-Security written exam for professional development purposes. Program fees apply to everyone pursuing the ACE-Security certification. This course meets the requirement for Airport Security Coordinator (ASC) Training.

### Benefits

You do NOT have to be an AAAE member to attend this course. However, if you are interested in pursuing an ACE-Security certification and taking the final exam, you will need to pay the ACE-Security Program fee. There are various registration fees available to address your situation or preference. Although there is also a self-study option for the ACE-Security Program, attending an ACE review course has the following benefits:

3B

- Instant early-bird savings on Review Course
- Sample test questions
- Suspended retake fee for first 12 months
- Opportunity to clarify/discuss latest security policies
- Explore/share security ideas in a proactive environment
- Interact with individuals with working knowledge of security
- Opportunity to earn a unique designation (those eligible)
- Potentially increase your aviation career opportunities

All sessions will be held at the Phoenix Airport's Facilities and Services Building, 2515 E. Buckeye Rd, Phoenix, AZ 85034. Registration opens at 8 a.m. and class will begin at 8:30 a.m. on Monday, October 1, and will end at 4:30 p.m. on Wednesday, October 3. The ACE Security Exam will be given on Thursday, October 4, from 9 a.m.-12 p.m. Sleeping rooms are being held at the Hampton Inn Phoenix Airport North. Transportation to the session site will be provided.

**Travel/Conference Summary Form**

Name: **William D. Biser**

Purpose of Travel: Attend annual **GCR Users Conference**

Date(s) of Travel: November 5 - 8, 2007

Location: New Orleans, Louisiana (GCR is headquartered there)

**Summary of meeting or conference agenda**

*[For info, GCR is a consulting company which specializes in data base applications for airports, airlines and aviation related businesses. MHT contracted in 2002 with GCR for a system which incorporates aircraft landing statistics, passenger enplanement statistics, property management, invoicing, cash receipts, and all related accounts receivable functions. As part of this, GCR created a technically complicated interface to the City's H T E System. The current version of the GCR product used by MHT is called ABM (Airport Business Manager)]*

Each year GCR hosts a User Conference in New Orleans for its airport customers and its users who are state aviation regulators. This year's 42 Conference attendees represented 13 airports and 8 government agencies. The actual 2007 Agenda is attached for reference. Most presentations were by GCR program managers/developers, but GCR also arranged with user attendees to formally share hands-on experience with products comprising GCR's AirportIQ Suite. The two lunch period presenters imparted valuable insights to the group, based on recent and very relevant challenges (Hurricane Katrina) as executives at nearby airports.

**Information learned**

- >Considerable time was spent acquainting us with GCR's soon-to-be-released Version 3.0, contrasting its various aspects with features now on the installed version.
- >I personally met those who work the GCR Help Desk, which facilitated the formal request I submitted for a simple enhancement to the current ABM version.
- >I connected with individuals who shared ABM experience – newly installed or long-time users – not only in Property Management and Accounts Receivable, but also lesser known applications like Space Management graphics. The names of those with whom I spoke have been added to my list of airport ABM user contacts.
- >I learned of product offshoots from ABM, one such known as APM, Airport Project Manager, a data base application of contract compliance and management for all phases of large, long-term construction projects.
- >GCR is compiling for attendees a CD of power point images used in all presentations, which will supplement my written notes and be valuable for reference purposes.

**Summary of meeting or conference agenda**

See attached agenda. GCR is the company that provides us with our property/contract and accounts receivable software. Each year they hold a “users group” meeting for all their clients to attend. The agenda consists of the introduction to their current and new products in development, followed by sessions covering current user issues as well as system training to cover changes resulting from the latest upgrades, and ending with an open-forum style session where users from the different airports are encouraged to share their experiences and ideas.

**Information learned**

The GCR conference is the most comprehensive I’ve ever attended. The sessions are packed with information and run all day, even during lunch where they bring in speakers on various topics. Since the GCR staff that created the system runs the sessions, every bit of information is applicable. Each year I learn many new things, ranging from ways to create even more detailed and customized reports, to networking with my peers from other airports on how to resolve issues and finding ways to improve workflow and efficiency.

REGIONAL AIRPORT

## City of Manchester Department of Aviation Manchester • Boston Regional Airport

### Travel/Conference Summary Form

Joan Pitman

Purpose of Travel: GCR User Conference

Date(s) of Travel: 11/5/07 - 11/08/07

Location: New Orleans, LA

#### Summary of meeting or conference agenda

Direction of Airport IQ - Upgrades

ABM - Airport Business Management

Combining Accounting to Management -

Regarding Reporting

International Rates & Models of Airports

Intro to Airport Security & Operations Compliance

System

#### Information learned

Primarily I was interested in the ABM  
breakout sessions. These related to Accounts  
Receivable - which is my position. There are over  
90 upgrades coming. Both minor & major. My job will  
be made a little easier by short cuts in entering  
info & applying pyts. Several reports will be able  
to be created for mgt review directly from my  
input. Most (if not all) other airlines charge  
finance charges and have minimal 30-90 day  
over dues. This is something I plan to ask about.

A COPY OF THIS COMPLETED FORM WILL BE SUBMITTED TO THE CITY  
CLERK'S OFFICE FOR DISTRIBUTION TO BOARD OF MAYOR AND ALDERMEN

## Economic Development Office

November 13, 2007

Real Pinard, Chairman  
Committee on Accounts, Enrollment & Revenue Administration  
City of Manchester  
One City Hall Plaza  
Manchester, NH 03101

Re: 2007 NEDA Conference

Dear Chairman Pinard and Members of the Committee:

Between September 30 and October 2, Glen Ohlund, MEDO Development Coordinator, and I attended the Northeast Economic Developers Association (NEDA) annual conference in Atlantic City. NEDA is a professional association created to promote economic and industrial development in the Northeastern region of the US. The organization conducts educational courses and seminars on economic development related topics and monitors important federal legislation. The annual meeting is held in a different northeastern state each year and includes a business organizational meeting as well as various workshops and seminars.

On September 30, Glen participated in the pre-conference Economic Development Tour of Atlantic City which spotlighted major redevelopment projects currently planned or underway. On October 1, Glen and I both attended the conference opening and Session I which compared and contrasted redevelopment efforts in Atlantic City with very different approaches underway in New Brunswick, New Jersey. Of particular interest was the critical role that Rutgers University has played in New Brunswick's redevelopment strategies and the surprising lack of planning for housing and transportation in Atlantic City despite substantial anticipated employment growth. We also both attended Session II on Innovative Financing and the following networking functions. On October 2, Glen and I both attended the keynote address which included an interesting presentation on the Port Authority of NY & NJ with a focus on their redevelopment efforts. For Session III, Glen attended the workshop on Transit Villages and I attended the workshop on the Realities of Real Estate. Both of us felt that these sessions had some value, but were too New Jersey specific.

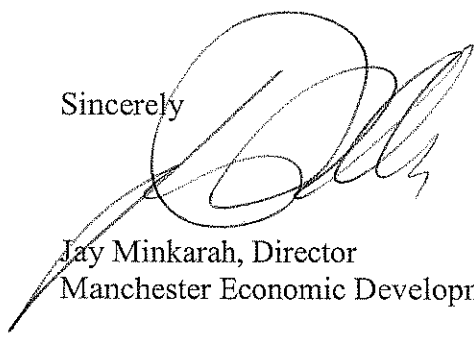

AS NEDA members, Glen and I also both attended the annual business meeting on October 2 before returning to Manchester that afternoon. Overall, both Glen and I found the conference to be valuable, providing us with additional insights into convention center planning, the role of retail and entertainment in economic development, the strategic importance of

One City Hall Plaza, Manchester, NH 03101 Phone (603) 624-6505 Fax (603) 624-6308  
Email: econdev@manchesterNH.gov www.ManchesterNH.gov

3F

colleges and universities, and the need to plan for housing and transportation links. The conference also provided an important opportunity to meet and exchange thoughts and ideas with economic development professionals, developers and local officials from throughout the northeast region. A copy of the complete agenda is attached. If you have any questions or concerns, please feel free to contact me at your convenience.

Sincerely

Jay Minkarah, Director  
Manchester Economic Development Office

cc: Glen Ohlund, Development Coordinator

# CONFERENCE PROGRAM

(times are subject to minor change)

## Sunday, September 30, 2007

- 9:00am – 6:00pm** Registration & Information
- 8:00am Tee Time** Annual Golf Tournament\*
- 2:00pm – 4:00pm** *Pre-Conference Workshop\**  
Business Dynamics: A New Context for Community Decision-Making  
Eric Canada, Principal – Blane, Canada Ltd.
- 2:00pm – 4:00pm** *Pre-Conference Learning Tour\**  
Economic Development Tour of Atlantic City  
Motor coach tour of major development sites, hosted by Mayor Robert Levy (invited) & local development experts
- 6:00pm – 9:00pm** Welcome Reception at the Atlantic City Aquarium  
Great food, great music, great friends — In the Waterfront!!

## Monday, October 1, 2007

- 7:00am – 8:15am** Breakfast (included in registration)
- 8:00am – 6:00pm** Registration
- 9:00am – 4:00pm** Guest/Spouse Tour\*  
Cape May Victorian Home & Physick Estate Tour and Luncheon
- 8:15am – 10:15am** Conference Opening Plenary  
Conference Welcome:  
The Honorable Robert W. Levy Sr., Mayor of Atlantic City  
Theodore Montgomery, President of NEDA  
Keynote Address:  
The Honorable William Gormley, New Jersey State Senator
- 9:30am – 11:30am** Session I  
Setting the Stage — The Economic Rebirth of Atlantic City and New Brunswick  
Tom Carver and Chris Paladino will draw on their first-hand experience managing two very different — and ultimately successful — “big picture” redevelopment strategies in order to define the critical issues that will be addressed in detail throughout the rest of the Conference.  
Panel Discussion: Sustaining Real Leadership for Economic Turnaround  
Chris and Tom will be joined by some of the public and business leaders directly involved in key decisions to discuss the kinds of sustained leadership required for success, and how to achieve it
- 11:30am – 12:00 noon** Our Traditional Networking Reception

\*Advance registration & additional fee required

3F

# CONFERENCE PROGRAM

- 12:00 noon – 1:45pm** Annual Awards Luncheon  
Announcing our Literature & Promotions, Project & Program of the Year Awards  
Featured Speakers:  
• The Honorable Jon S. Corzine, Governor of New Jersey  
• Marc Michael Goloven, Economic Consultant to the Mayor of Yonkers, N.Y., and retired Senior Economist at JPMorganChase
- 2:00pm – 3:45pm** Session II  
Innovative Financing in the Context of Aging Infrastructure and Smart Growth  
Major turnarounds need major capital investments, in economies that are — by definition — in decline. Leading experts from business and government talk about how it *can* be done.
- 6:00pm – 7:00pm** Past President's Reception
- 7:00pm – 9:30pm** 51st Anniversary Gala Awards Banquet  
Recognizing our Business of the Year, Volunteer of the Year, and Member of the Year

## Tuesday, October 2, 2007

- 7:30am – 9:00am** Breakfast (included in registration)
- 9:00am – 9:45am** Keynote Address  
Susan Bass Levin, First Deputy Executive Director, Port Authority of NY & NJ  
Development of the Freedom Tower Project
- 10:00am – 11:30am** Session III: Concurrent Programs  
*Session IIIa:*  
How Transportation Systems Anchor Redevelopment and the Role of Transit Villages  
Global warming. \$4 per gallon gasoline. Smart Growth. Some of America's brightest minds and most interesting projects — on the ground and not just on paper — are in New Jersey. Hear how integration of transit and redevelopment just might transform the way we live.  
*Session IIIb:*  
The Realities of Real Estate — What Developers Need to Build in Your Town  
Why do developers make huge, seemingly risky investments in one place and not another? For-profit developers with deep urban redevelopment experience discuss "what it takes" with elected leaders and policy experts.
- 11:30am – 12 noon** Annual NEDA Business Meeting  
*With a preview of the 2008 Annual Conference in Buffalo, N.Y.*
- 12 noon – 1:30pm** Breakaway Lunch

**RE:** Conference Travel Report – WEFTEC 2007

---

No. 07-153

From October 13 to October 17<sup>th</sup> I attended the Water Environmental Federations annual technical exhibition and conference (WEFTEC) in San Diego. This is the largest wastewater conference in the world with over 10,000 attendees and 7,000 vendors/exhibitors. During the conference I reviewed the latest wastewater equipment and technologies that pertain to our ongoing wastewater treatment plant (WWTP) upgrade. I also reviewed CSO storage technologies and designs in preparation for Manchester's upcoming Phase II program. As part of the conference, I attended technical sessions pertaining to sewer system maintenance, WWTP upgrades, and infrastructure program management. Just as important as the technical sessions, was networking with my professional peers and sharing our successful and unsuccessful programs, providing each other with valuable lessons learned.

If you have any questions regarding this conference, or require any additional information, please feel free to contact us at your convenience.

## MEMORANDUM

---

**Date:** October 30, 2007 #07-097  
**To:** The Board of Mayor and Aldermen  
**From:** June George, BSO *JG*  
Environmental Protection Division  
**RE:** Report on Conference

---

I attended the 2007 Northeast H.T.E. Users' Group (HUG) Conference from Tuesday, evening October 9<sup>th</sup> to Thursday afternoon Oct. 11<sup>th</sup>. Tuesday evening provided the opportunity for early registration and some networking with other conference attendees.

Wednesday morning sessions included Infysis, Extended Reporting and Global Financials Application. There was extensive discussion on the upcoming enhancement upgrades for the general ledger package. Changes that appear will be most beneficial to the City include additional P-card integration, and a single step process in the Purchasing and Inventory module to replace a current multi-step process.

The afternoon session dealt with Contract Management. It is a new area that H.T.E. will be offering in the future and currently is in the beta testing stage. This is a module that may be advantageous for the City to purchase as it will provide a more efficient method of contract tracking. The module is an online repository for contracts and allows for an audit trail of all parties involved from the beginning negotiations to contract completion. Approvals may be made on-line, milestones identified, renewal dates flagged, automatic email notification of key dates, etc. The module may also be integrated with the Infysis financial system but, in my opinion, there are significant limitations in this area that would not benefit the City. For example, a CIP project may have only one contract attached to it in the system. If a City project has a construction contract and a separate engineering contract, the module would only capture one of the contracts within the project ledger. H.T.E. representatives did take notes on this issue to review with software programmers.

The focus of Thursday morning was "Infysis Projects Beginning to End." I learned new, more efficient techniques for processing CIP project transactions. This session also provided the opportunity to discuss some key problems EPD has with on-line project inquiry in Infysis.

The direction H.T.E. appears to be heading is to not support the "GUI" product. GUI, Green-screen, and Naviline are three different ways financial data visually appears on the monitor. All sessions I attended and that my staff attended at the HUG conference used Naviline and Green-screen in the demonstrations, GUI was not even discussed. My understanding is that the majority of the City uses GUI at this time.

Overall, I found the HUG conference very beneficial. Networking with other municipalities that use the same accounting package as the City of Manchester is an invaluable experience. Sharing and discussing with different municipalities how they incorporate H.T.E. modules into their overall financial control environment provides as much training as does the presentation by H.T.E. staff.

## Memorandum

To: Board of Mayor and Aldermen

From: Denise J. Vigneault *DJV*

Date: 10/26/2007

Re: Conference Report

---

I attended the 2007 Northeast HTE Users' Group Conference held in Stamford, Connecticut from October 10<sup>th</sup> through October 12<sup>th</sup>. The sessions I attended focused on procurement cards, NaviLine, purchasing/inventory, and invoice processing.

On Thursday, October 11<sup>th</sup>, I attended the following: Procurement Card Tracking Overview, Purchasing/Inventory Application Forum, Purchasing/Inventory Interfaces, Purchasing/Inventory Receiving & Invoicing Extras, and Purchasing/Inventory: Did You Know?.

On Friday, October 12<sup>th</sup>, I attended: NaviLine Overview & Enhancements and NaviLine: Did You Know?.

These sessions were helpful as I learned new techniques, shortcuts, and tips, which are helpful when reconciling p-cards, inputting purchase orders & processing invoices. I also attended some brainstorming sessions with other municipalities. These were interesting as attendees shared their knowledge and/or their problems with the different enhancements or processes with the different software, such as GUI, NaviLine and 'green screen'.

Thank you for giving me the opportunity to attend this conference.

The Board of Mayor and Aldermen

From: Victoria Engheben

I attended the HUG Conference on 10/10 – 10/12/07

10/11/07	8:00 - 9:15 AM	LXA607	Land Parcel Management course found it to be primarily for building inspections, and knowledge of Land Parcels
	9:30 - 10:45 AM	MRA613	Accounts Receivable Bank Drafting set up and processing to utilize accounts receivable, taking into consideration bank holidays yearly
	11:00 - 12:15 PM	MRA614	accounts receivable invoice reprint, using invoice inquiry
	1:45 - 3:00 PM	CRA610	cash receipts improved entry, in green screen vs. Navaline
	3:15 - 4:30 PM	MRA615	working with deposits in accounts receivable processing of deposits for a major event to be utilized in the future, any remaining money not used to be refunded, not applicable to my work
10/12/07	8:00 - 9:15 AM	TSA613	Tax billing and collections future direction thought this might be helpful for warrant purposes and customer inquiries. The entire session was about H U G enhancement requests, given by the support team
	9:30 - 10:45 AM	CRA601	cash receipts tips and techniques understanding new techniques and processes in H T E, one person showed up for this class, that was myself.

I found the conference focused primarily on the use of green screen, do not know why. Also, felt when a question was asked, it should have been repeated by the presenter to enable the entire class to understand what was asked. Networking was advantageous, met many wonderful people, always nice placing a face with the voice you are communicating with. Thank you for the opportunity.

November 1, 2007

Alderman Real Pinard, Chairman  
Committee on Accounts, Enrollment  
& Revenue Administration  
C/o Leo Bernier, City Clerk  
One City Hall Plaza  
Manchester, NH 03101

Dear Alderman Pinard,

This letter is submitted in accordance with the City's Travel Policy. Kim LeBlanc, Michele Bogardus and Lisa Sorenson were sent to the Northeast H.T.E Users' Group (NEHUG), October 10<sup>th</sup> – 12<sup>th</sup>, Education Conference in Stamford, Connecticut. This is an annual conference with the purpose of advancing the effective utilization of H.T.E products as well as providing a forum for suggestions on revisions or enhancements to the H.T.E application. It is also a networking and information exchanging opportunity for employees of the City of Manchester.

The following classes were attended by the employees in the Finance Department:

- NaviLine Navigation Lab
- Accounts Receivable and Bank Drafting
- Procurement Card Tracking Overview
- Using DMS for Accounts Receivable Invoices and Reporting
- INFISYS Projects Beginning to End
- Cash Receipts Improved Entry
- INFISYS: Did You Know...?
- What's New in Financials - Versions 5 and 6
- Cash Receipts Tips and Techniques
- Cash Receipts: Balancing Cash to Your Deposits in the General Ledger
- INFISYS, Extended Reporting and Global Financials Application Review
- Payroll Child Support EFT Overview
- SunGard HTE Trends and Directions
- Work Orders/Facilities Management: Managing and Maintaining Your Facilities
- Accounts Receivable Bank Drafting

35

Most of the classes listed above were directed from an end-user perspective which allowed all participants to collect information on day to day job procedures. This is very beneficial to the City as some procedures have changed due to software upgrades. These classes also provided a forum for discussions on more effective ways to utilize certain applications, as well as encouraging brain-storming sessions for future software enhancements. In addition to informational training, NEHUG also offered hands-on lab sessions that allowed end-users to physically go through processes step by step with the use of a computer and instructional lecture.

It was also beneficial, as an end user, to have a forum for problem resolutions with the employees of H.T.E as well as other municipalities. Discussing specific concerns and problems that the City was experiencing on a one-on-one basis allowed a more personal approach to problem-solving and helped build better working relationships between H.T.E staff and employees from the City.

The information and training we received during these sessions have already assisted us in our day to day duties as well as given us the tools to provide help to other city departments. Being confident in using the H.T.E software allows us to be more productive and provides us with the tools and tips to pass along to others to make them more productive as well.

Respectfully submitted,

Lisa Sorenson

*0707*

**date:** September 27, 2007

**no:** #07-043

**subject:** *Attendance at APWA Congress & Exposition*

I attended the American Public Works Associations' (APWA), International Congress and Exposition. This conference is geared for Public Works Officials and is the largest such conference held annually in the United States (10,000 attendees). This conference has two major components to it. The first is a vendor/equipment exposition, which gives the attendee the ability to learn about new equipment, products and techniques that are available to assist a municipal official in carrying out his or her duties and responsibilities in efficient cost effective manners. The second major component of this conference are the numerous educational/workshop sessions dealing with all aspects of municipal operations. These sessions varied from employee/community relations to best management practices. It was typical to have a choice of up to a dozen different educational sessions to attend at any one time.

A few examples of the equipment and products that I reviewed that I thought were interesting are as follows:

1. The City has recently had a demonstration of a brush cutting piece of equipment, which included the cutting boom and tractor. At this conference, the Tiger Corporation sells a brush cutting boom that can be attached to an existing tractor/backhoe, which would provide a brush cutting piece of equipment at a much lower cost. The existing tractor/backhoe could be used for other purposes when not needed for brush cutting.

*3 T*

2. I also looked at a low cost tool that one person can use to lift catch basin covers and manhole covers off their frames. This tool is light-weight, compact and easy to use and would reduce potential back injuries, which could reduce workman's compensation costs.
3. The City now recommends the use of toters for trash collection. There is a possibility that in the future, one man trucks could be utilized in the less urban areas of the City for trash collection utilizing toters. Toter also manufactures a 60 gallon trash/litter container that could be employed in the Downtown Area and emptied with a one man truck, which would reduce labor costs.
4. The patching of potholes is a never ending Highway Department work task. In the winter, patching potholes is more of a problem in that the cold patch materials that are available in the winter typically don't stay in the pothole. As a result, the Department has to go back to the same pothole on numerous occasions, which is a waste of both labor and material resources. At the conference, I talked to a vendor that sells a product called "Perma-Patch", which they claim will provide a permanent repair to a pothole. If this product holds up to the claims made, it will save the City and Department valuable resources. We will look into this product in more detail; however I have heard similar claims in the past.

There are many educational sessions that I found interesting and of value, however one theme was repeated at various sessions and that was global warming. You hear it constantly being mentioned, but you really don't give it a lot of thought. These sessions made me aware that practically everything has a "carbon (CO<sub>2</sub>) footprint", has an impact on our environment and the resulting global warming issue. Some items, which products or operations have a larger "carbon footprint" than others and we all should be aware of this fact. For example, it's in style to drink bottled water due to its health reasons and it's even more stylish to drink foreign bottled waters. Stop and think how much CO<sub>2</sub> is generated to get that bottled water out of the ground in say France to the local store in New Hampshire. CO<sub>2</sub> is generated operating the pumps to get it out of the ground, to bottle it, to truck it to the docks, to ship it to the United States, to truck it to the wholesaler, to truck it to the local store and for you to drive your car to the store to pick it up. In public works, we have to start looking at our operations to minimize the generation of CO<sub>2</sub> through education, reinventing the way we do business and investing in vehicles that are either more efficient or produce less CO<sub>2</sub>.

This doesn't necessarily apply to Manchester, but developers in less urban areas need to start looking at self contained residential development that combine residential homes with basic commercial needs such as a grocery, drugstore and bank, all in the same complex. This type of development would greatly reduce the need to drive long distances which would reduce CO<sub>2</sub>. It was interesting, because this concept is presently being utilized by a local engineering firm on projects throughout New Hampshire.

September 27, 2007

Pg. (3)

The subject of "Roundabouts" was also discussed at various sessions. These sessions focused on case studies of various municipalities. In general, these sessions noted that a "roundabout" improved safety, increased capacity and reduced delays at intersections. It was pointed out that safety was the greatest asset of a "roundabout". Crash rates only dropped by 10%, but the severity improved by 70%. Also, "roundabouts" were safer for pedestrians and bicyclists in that they only have to keep an eye on traffic coming in one direction.

There were many other sessions that laid the foundation to get you thinking about how to do things differently in order to stretch that shrinking tax dollar.

/c

Re: Travel Report

Dear Alderman Pinard and Members of the Committee:

Dawna Rooks, Compensation Manager, requested to attend the 2007 Northeast User's Group (HUG) Annual Conference in Stamford, Connecticut. The conference was from October 9 to October 12, 2007.

Prior to authorizing an employee to attend any conference or training, I ask that employee to outline what he/she will learn at the conference that will enhance his/her skills in his/her current position. Dawna Rooks prepared the attached document outlining what she hoped to learn from attendance at this conference. I am attaching this to this letter to ensure that we are in compliance with the travel policy.

If you have any questions or need any additional information, please let me know.

Respectfully submitted,

Virginia A. Lamberton  
Human Resources Director

3K

Classes I would like to take at the HTE user meeting in New England

1. Infisys, Extended Reporting and Global Financials, Application Review-Infisys is what all our modules (payroll, cash receipts and Accts receivable) dump into. From there, we can generate reports. Mostly Guy does this, but I have done some work with this end of things. I use the extended reporting for analysis of salaries. This class is focusing on what is new with the updates.
  - 1a. This gave us some additional information on the aspects of EFT and the reporting requirements for the various states. This was added AFTER I had already arrived and was somewhat informational.
2. Naviline Navigation Lab-This is a lab (hands on using a computer) for naviline and going through using this application within payroll. Naviline is what we have capabilities for (now...) and is more web based rather than point and click in GUI. This is what HTE and perhaps Info would like us to move to. If I can learn to use this, I can train the depts to use this too. EPD is the only dept that uses is (that I am aware of) but like it!
3. HR And Payroll Focus Group Meeting / roundtable-Help define the roadmap for new product development at SunGuard THE. Your ideas and opinions will influence the products THE develops.
4. Human Resources: Preparing for Installation or Migration-HR application is an application we have already purchased and Info was waiting for someone to be in my position long enough to train and implement it. I would like to attend to help us if we eventually do load this package that is supposed to work with Payroll as an HR package.
5. Qrep Reporting: Report Writing for Experienced Users-I use this to run a lot of the reports that I do for you, and the depts and others in our office. This is a lab to help us run these reports better.
6. Payroll/Personnel: Learn how the Grade Step Table and Position Control can help Manage Employee Wages-This is a class to help me look at the positions and the grade/step table. I always learn little tidbits in these classes that helps me manage Payroll. So, I do try to catch all the payroll classes that I can.
7. The Human Resources Personnel Suite-This is the Windows based package that has been rewritten and we will get a demonstration of on-line processing and maintenance of employee records. I would like to see how all this is supposed to work with Payroll and HR and I think there is also "applicant Tracking". I am not sure what that is, but Chris may be interested once I find out.
8. Making the most of Position Control in Payroll/Personnel-This helps me better understand how each of the positions work and how it helps us budget a little

better. I am hoping to learn how to better run reports using this to account for vacancies as well as people in positions.

9. The Hiring Process for Applicant to Employee- This will help show us understand how all of these things will work together. They have capabilities that work with recruiting, interviewing and hiring applicants to keep track of them all. I would like to see how to do this and if we can take advantage of some of this stuff.
10. Budgeting in Payroll/Personnel-The basics and beyond-This is a class about budgeting and how to best use it to your advantage. I have learned primarily through trial an error and this is the part of payroll that I know least about and would like to figure out some way to fine-tune this process.
11. Payroll/Personnel Application Forum-Payroll Round table-This is a place where we can share questions and ideas and sometimes figure out better ways to do something by speaking with other users (or hearing how they do something).

2007 Northeast HTE Users' Group (HUG) Annual Conference - PUBLIC ADMINISTRATION AGENDA  
October 9-12, 2007 / Stamford, CT

## The City of Manchester Office of Youth Services

1425 Elm Street / Suite 204  
Manchester, New Hampshire 03101

October 17, 2007

Alderman Pinard, Chair  
Committee on Accounts  
One City Hall Plaza  
Manchester, NH 03101

Dear Alderman Pinard,

Section 1, V. D. of the City of Manchester Business Expense Policy "Those traveling to conferences and training paid by the City shall provide a report to the Board of Mayor and Aldermen following the attendance to advise of the activities learned". Following is a report of activities from a recently attended training session.

From August 24 to 27, 2007 Judy Cooper and I attended the New England School of Best Practices in Addiction Treatment Advanced Clinical Coursework / Opioid Treatment Coursework. I attended a course on Clinical Supervision and several plenary sessions that focus on substance abuse intervention. I gained information that will enable me to provide better supervision for the staff activities at OYS. I have to take these classes so that I can maintain the license required for my position by the job description. More importantly, by remaining current in the field, I can provide better services for OYS clients.

Judy Cooper attended a Dual Diagnosis workshop. Attending this workshop is also a necessary requirement for her to maintain her license. She found that the workshop would improve her counseling skills and better enable her to provide services to the children served by the Office of Youth Services.

Sincerely,

Martin Boldin, LICSW, LADC, LCS  
Director

## CITY OF MANCHESTER Board of Assessors

Date: October 12, 2007  
Re: Abatement and Overlay Account Update

Dear Chairman Pinard and Honorable Committee Members:

Attached you will find an update on all abatements granted from March 1, 2007, to September 30, 2007. Additionally, we are attaching the complete listing of all 2006 abatements filed, as well as a list of all cases still pending. As the chart below indicates, there are 169 BTLA cases, 48 Superior Court cases, and 89 local cases still pending.

Appeal Venue	2004		2005		2006	
	Value	# of cases	Value	# of cases	Value	# of cases
BTLA	\$40,304,900	5	\$100,579,600	46	\$180,518,500	118
Superior Court	\$0	0	\$36,565,000	3	\$274,822,100	45
Local Appeals	\$0	0	\$0	0	\$144,583,100	89
Total	\$40,304,900	5	\$137,144,600	49	\$599,923,700	252

### Overlay Balances

Below are the current balances of our abatement accounts:

Account #	Year	Current Balance
1210	2003	\$ 31,457.05
1206	2004	\$ 47,595.62
1205	2005	\$ (49,686.41)
1204	2006	\$ 1,380,554.34
Total		\$ 1,409,920.60

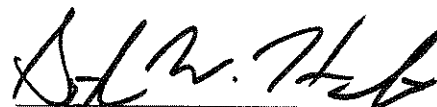

We remain available to answer any questions you may have regarding this matter.

Sincerely,

  
David M. Cornell

  
Thomas C. Nichols

  
Stephan W. Hamilton
